

*Around 20 years ago, Mr. Volker Kranich discovered his passion for new and old styles of glass domes. Today, he has specialized in like very few international glass artists in dome constructions and his services are demanded by customers from all over the world. Whether for the hotel Le Meridien in Budapest, or the famous glass dome at the Hotel Adlon in Berlin, or the artfully roofed inner court at the Hotel Bayerischer Hof in Munich - here the impressive glass dome is sized 12m X 10m and weighs 28 tons!*

## CLUB

Wherever a visitor of an exclusive hotel or other luxury building admires a dome shaped roofing of glass, he or she is often witnessing the craft of Master Kranich.

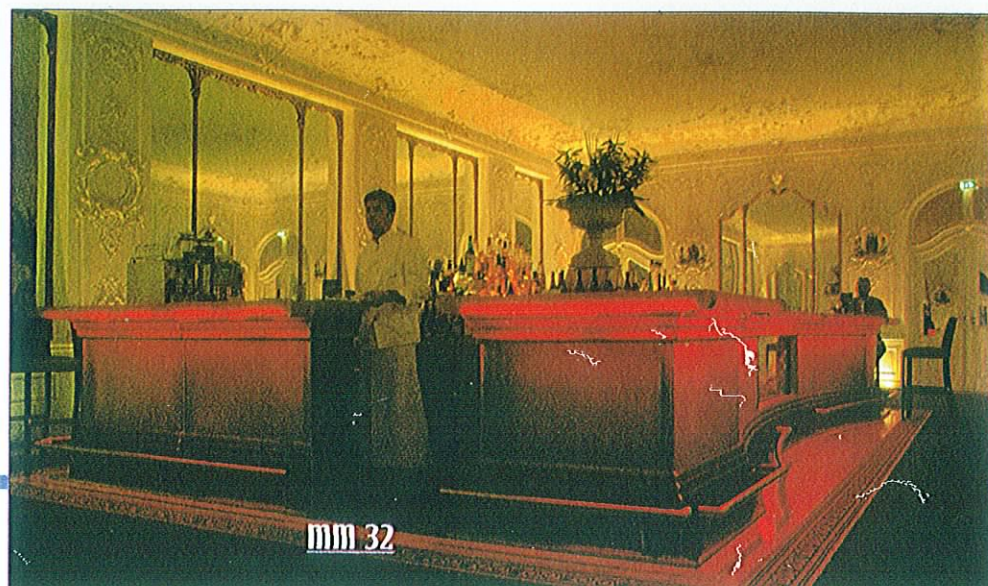

Translucent And Impressive  
Colour Effects

Besides the mastery of the art, the know-how of the craft has equal importance: "With every larger glass dome, I deliver the design, the

planning and the static," says Volker Kranich, our customers receive a full range of services from one source. We offer and provide complete solutions. He adds: "We can realize almost any notion of a client, no matter how unusual the wish, we can fulfil it." Special sandblasting, glass paintings and fusing are all done in his studio.

It is mostly horticultural or interiors styled inner courtyards, where Kranich's glass artwork is arched. Nothing speaks against office space, elegant bedrooms or designer kitchens to be translucently roofed. Whether clear and transparent glass, fascinating colour-effects, or artful glass paintings - nothing is impossible for Master Kranich.

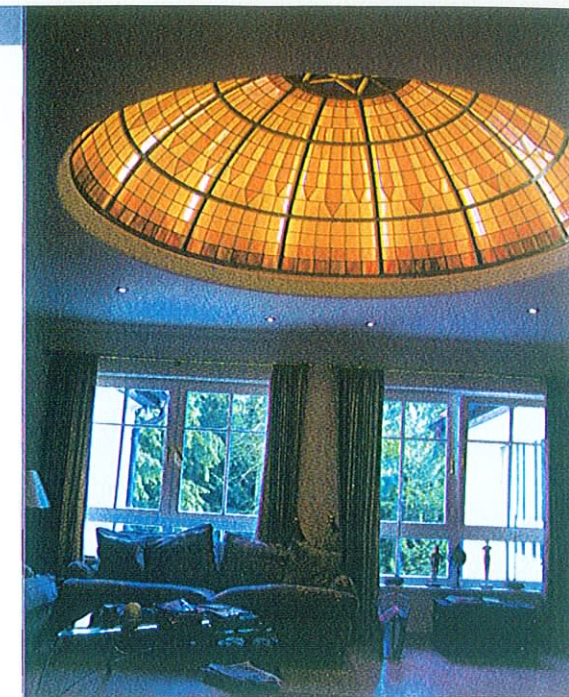

The scope of products and services are not limited to large constructions only. Master Kranich also has a fine understanding for exclusive home glass objects. For example, he designs and produces unique lamps made of precious stones like amber.

So, Master Kranich simply is not only one of the best glass dome artist in the world, he is a master of light!
